

CINDY MILLER

ABOUT CINDY

Cindy Miller is a member of the LPGA. She started her career as a Touring Professional where she played on Tour for three seasons. She lost her playing privileges and joined the Teaching Division in 1982. She and her husband, Allen are the only married couple in the world who have played on all four major tours. They have been teaching golf to students of all ages and abilities at public driving ranges in Buffalo, New York for the past 39 years.

She loves being self-employed and teaching at public facilities. The Millers offer private, group, playing, and golf school sessions at three different facilities in Buffalo. They also conduct three - and four - day Boot Camps in Florida.

They have been Under Armour Junior Tour League Directors of Buffalo and run two seasons per year. Their players consistently finished in the top twenty at the National and World Championships, and the top ten in the world.

Cindy's new book, *Take Another Shot at Business, Golf or Life* was published in May of 2025 and quickly reached #1 on Amazon Best Sellers list. The book includes 18 chapters, each sharing a story of a lesson she needed to learn to become successful as a player and now as an LPGA Professionals Hall of Fame Member.

Cindy is sought after as a Speaker and Corporate Trainer. She is Certified in Behavior, Motivation, and Emotional Intelligence and teaches individuals, teams, and corporations to unlock potential and improve performance. She has delivered her programs to companies such as Microsoft, Merck, Liberty Mutual, M&T Bank, ISPS, General Mills, Kraft, P&G, Verizon, and many others.

The Millers have three children and seven grandchildren. They love spending time with their dog and babysitting their grandchildren!

NOTABLE STUDENTS

During my many years teaching I have had the opportunity to teach many players. One more notable was PGA TOUR Comeback Player of the Year Dudley Hart. When he needed to make enough money to regain his playing status, Allen and I helped him do so. I have also helped Myra Blackwelder, Jean Bartholemew, Kathryn Young, and Joanne Carner. I have also taught our son, Jamie Miller who played college golf at Augusta State and beat Webb Simpson on the eighteenth hole to win The Hootie at Bulls Bay College Event. Jamie has competed in fourteen USGA events.

SAMPLING OF INNOVATIVE PROGRAMMING

OWN your game.
in business. in sport. in life.
cindymillerinc.com

I have created a custom online DISC Golf Assessment to help students understand their behavior style and what their tendencies might be on the course; why they are either attracted to or avoid risk, whether they like every yardage in exact numbers, or prefer to get a feel for the distance. Knowing who you are on the course is imperative to play your best. I have also developed an online Learning Style Assessment. Students need to know how they learn best.

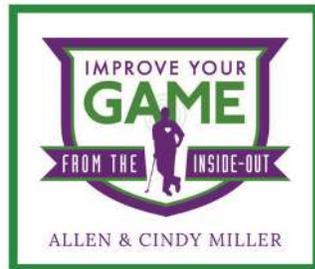

I created The Learn to Hit It Kit. The Kit includes a portable mat, foam balls, my Golf 101 book and access to the Learn to Hit It Online Course. Learn to play golf in your backyard!

In 2016 I started The Pursue Your It Foundation. I wanted to help students unlock their personal potential whether they played golf or not. The program is aligned with the social and emotional learning benchmarks for New York State Schools. These benchmarks include developing self-awareness, self-management skills, using social awareness and interpersonal skills, learning to establish and maintain positive relationships, and learning ethical decision-making skills. We have delivered this program to over one thousand students in Western New York. On Oct. 28, 2025, we will hold our first Summit.

SAMPLING OF INNOVATIVE PROGRAMMING

Improve Your Game from the Inside Out

This comprehensive online program has been created to teach students to play better golf by learning who they are both on and off the course, how they learn, what mental skills they currently possess, and what skills they need to learn. Included in your tuition are several online assessments, video lessons, check in calls, and data reports. You WILL learn to score better.

From the Back Nine to the Boardroom

This online course will teach you everything you need to know to accept that next invitation to play in the company golf outing, charity event, or possibly to network and build a base of clients. Everything from rules, to etiquette, dress code, scoring and equipment. I promise you will feel comfortable on the course.

The Youth Development Program

This program teaches youth about themselves. **WHO** they are, **WHAT** motivates them to action, **WHY** they do things the way they do, and **HOW** they can achieve their goals. Cindy uses her customized youth behavior and motivation reports to teach the students about themselves. Once they know who they are, they can make better decisions, learn to adapt and adjust to others, and learn better social and emotional skills to communicate more effectively with others.

The Player Development Program

This four-month program is for the serious, committed player who wants to improve their game. It might be ball striking, short game, mental game, or shot consistency. They are committed to doing the work it will take to change their game. Practice sessions and private lessons are included as well as video programming. Behavior and learning style assessment are included as well.
